

CURRICULUM VITAE

MARZIA BRINI

Sound engineer

marziabrini@libero.it

391 760 2424

I have had a lifelong passion for sound which led me to study Music and Sound Engineering at Spazio Musica, in Naples (Italy). During my career as a Sound Engineer I have undertaken many roles within the industry working in the corporate, music and theatre environments.

As a system tech I have been responsible for hanging and building PA's in venues such as Andrea Bocelli - Sud America Tour and São Paulo Carnival.

As a stage tech I have worked on Primo Maggio, Lee Ritenour - Sud America Tour and Converse Rubber Tracks, among other venues.

As a FOH & Monitor engineer in music and theatre, I have worked with such acts as The Hives, Donovan Frankenreiter, Marky Ramone and Elza Soares.

In the corporate sector I have worked on many events and conferences across Italy and Brazil, like HSM, Conarh, Flip (Feira Literária Internacional de Paraty) and events for brands like Diadora and Nike.

I worked for the Opening and Closing Ceremonies of Rio Olympic and Paralympic Games 2016 at Maracana in Communication (intercom, panel, belt-pack, radio) for Riedel Company

My work ethic and professional manner on site has given me a reputation of being a hardworking, dedicated and friendly individual who is always looking to learn and also willing to help others out. For me the job isn't finished until the truck doors are firmly shut!
